Tatvine koles so dokaj pogosto kaznivo dejanje. V Sloveniji je ukradenih oziroma prijavljeno pogrešanih letno okoli 3.000 koles. Tatovi tudi niso izbirčni; kradejo vse vrste koles, ne glede na vrednost in znamko. Zanje je najbolj pomembno, da je njihov podvig čim bolj enostaven. Zato **vam svetujemo, da raje dobro zavarujete svoje kolo in ne ponujate priložnosti nepridipravom**.

Bicycle theft is a common crime. Around 3,000 bicycles are stolen or reported missing in Slovenia every year. Thieves are not precise either; they steal all kinds of bikes, regardless of value and brand. For them, the most important thing is that their theft is as easy as possible. **That is why we advise you to secure your bike well and not give opportunities to thieves.**
